

ADEBAYO MOSES

Sir/Mr.

Front-End Software Developer/Designer

I'm a very ambitious software developer looking for a role in established organizations with the opportunity to work with the latest technologies on challenging projects.

I'm quietly confident, Tech Savvy and working around on improving my skills one after the other. I help people and brands reach their goals by designing & building user-centric digital products and interactive experiences.

"At Agency Side/Client Side/Freelancer, i've accomplished and developed a couple of websites/software/designs and boosted brands across the media and i want to widen my scope, reach to more companies and do what i know how to do best!"
